*"To travel is to discover that everyone is wrong about other countries"- **Aldous Huxley***

PROGRAMS:

- ☺ **CO-OPERATIVE MASTERS DEGREE**
- ☺ **ATHLETIC & ACADEMIC SCHOLARSHIPS**
- ☺ **HIGH SCHOOL PROGRAMS: ACADEMIC YEAR & SUMMER CAMPS**

COOPERATIVE MASTERS DEGREE

This program enables selected and qualified university graduates with good grades to gain admission for further study in the United States through a cooperative education program that offers a full time work and study option. Participants are able to pursue their Masters Degree full time while working in paid positions at the same time and gaining relevant work experience in the related field of study.

The program also provides them with the opportunity to work alongside their American peers, make new friends and travel to other parts of United States for learning purposes.

Hi-Tech International Resources, Inc (HTIR). Place candidate in employment near a university which will accept and enroll the candidate in a Master degree "co-operative education" program which gives the legal right to work full time and study simultaneously.

The program has 2 components;

- **Curricular Practical Training (CPT)** is the legal description for the paid internship employment that students engage in while in a co-op program. The purpose of CPT is to give students practical experience in the workplace to augment what they are learning in the classroom.

- **Optional Practical Training (OPT)** is the legal description for the one year employment that you are allowed to engage in after you graduate from your Master's program. The purpose of OPT is to give you further practical experience in the workplace relating to your Master's major.

Participants in the program may not be able to participate in the OPT aspect if they have had more than 1 year on the CPT aspect of the program even though they may do the CPT through the duration of their study.

HTIR guarantees at least an initial "entry-level" employment position which, if retained by candidate, will pay an average of \$35,000 over the first 28 months, with the right of the candidate at any time to seek and move to a higher paying job if he/she chooses to do so. (Candidates with very low English ability or skills may earn only \$25,000 while candidates with high English ability and/or skill sets may earn up to \$50,000 or more, but the guarantee HTIR makes herein is that co-op students will be given the legal right to full time employment to be paid wages at a level according to their skills).

? FOR WHO ?

Application is open to bonafide international graduates with Bachelor's degree from accredited universities. The general admission requirements are;

- 1. Completed and signed school application forms**
- 2. Copy of Passport** (If you have a passport now. Otherwise, send a copy as soon as you receive the passport)
- 3. Bank statement:** Either,
- 4. Sponsor letter and financial form:**
- 5. GRE AND GMAT:** There are some universities that do not require these tests. However, it is important to realize that getting admitted into a college or university is only half the battle. You also must be granted the visa so that you can attend the school. Therefore, it is our suggestion that even if these tests are not required you should consider taking them so that you have a better chance of receiving the visa. There are some countries, such as Nigeria, where a student will automatically be denied if they have not taken one of these tests.
- 6. Two letters of recommendation.**
- 7. Resume:**
- 8. Evidence of English proficiency (TOEFL or IELTS)**

9. Certificate/diploma/proof of Bachelor's

11. Official or attested TRANSCRIPTS

12. Dependent Documentation

FEES

- Processing & Registration fee: **NGN 55,000** (*non refundable*)
- Relevant Institution Fees and tuition

BENEFITS TO NIGERIAN APPLICANTS

Applicants from Nigerian universities with a Bachelor's Degree can participate and hope to gain these attendant benefits:

- Opportunity to work and study in a renowned international institution in the USA.
- Opportunity to meet people from diverse background, culture and interests in global issues.
- Opportunity to benefit from on-study internships and paid jobs thereby putting their entrepreneurial skills to work and gain valuable management experience that will be useful in future.
- Unique brand experience that adds value to their resume.
- Opportunity to work and earn salaries like their US counterparts, make savings and connect with colleagues that will impact on their lives.

ATHLETIC AND ACADEMIC SCHOLARSHIPS

International Doorway to Education & Athletics (IDEA) is an organization based in the U.S.A., specialized in international student recruitment and placement, in Universities and colleges in the U.S.A., since 1997. Our mission is to help young people from all over the world realize their educational dream of studying in the U.S.A., experiencing a cultural exchange of great benefit. We strive to be the most effective link between students from around the world and U.S. institutions for the placement of qualified young people into the American educational system.

We also maintain a 100% success rate in obtaining scholarship offers for its participants. All our programs have fees that are refunded in case the participant is not successful. In other words, IDEA operates under a no-risk policy for its participants.

The Academic Program is designed for international students to receive scholarships to American universities exclusively available to our candidates. Scholarships are awarded based upon the student's academic potential and willingness to share ideas and experiences with students from other countries on campus, thus contributing towards cultural diversity. Our organization works with a variety of U.S. institutions in the development of their international student base. Through the scholarship program, American universities foster relations between students from different parts of the world, convinced of the great aggregated value and possible projections this multi-cultural exchange represents. Due to this, these institutions are willing to offer important scholarships to allow our students to pursue a university career in them.

Upon entry into the Academic Program, each IDEA enrolled candidate educational objectives are carefully evaluated and their profile is personally promoted within the participating institutions by our network of associates. **Each candidate is guaranteed to receive at least seven scholarship offers, taking into consideration their academic interests, within the following ranges:**

- a- Two (2) scholarships to be paid yearly (including tuition, room and board) ranging from U\$S 5,500 - to U\$S 9,000.-
- b- Five (5) scholarships to be yearly paid, equal to or under a 50% of the university costs (including tuition, room and board).

Most of these awards are special offers established for our candidates only and are not available to students outside the program. Partial and full tuition awards are available through this program. Full scholarships, though, (including room and meals) are not common. The program runs as per semesters and allows participant entries into the U.S. educational system in both fall and spring semesters. The student may start studying in the semester he is applying or in the following one.

ATHLETIC SCHOLARSHIP PROGRAM:

The Athletic Program main target group is defined as recreational or amateur athletes. Low, average, and high athletic level student-athletes have the unique opportunity to showcase themselves to over 70 coaches. Achieving the best possible athletic scholarship based on each participant talent and performance at the Program.

In all cases students can achieve these results only due to our professional assistance and service. We work with low, average, and high level athletes providing results to all of them with the same commitment regardless of their athletic level.

The Program's objective is to promote a dynamic interaction between international candidates and American university coaches for the purpose of exposing educational opportunities, inter-cultural exchange, and sports,

with the ultimate goal of providing young people from different countries the opportunity to fulfill their dream of studying and obtaining a degree from an American university, while practicing their favorite sport. University coaches from over 70 institutions in the U.S. attend the program in order to evaluate our candidates for potential athletic scholarship awards.

This is the most effective and comprehensive program especially designed to provide international student-athletes access to obtaining scholarships to study and earn their degree from an American university.

The International Athletic Showcase organized by IDEA will take place over a two-week period in July every year at Barry University & Embry-Riddle Aeronautical University campuses located in the state of Florida.

Young people from over 25 different countries throughout Europe, Latin America, Africa and Asia will participate.

We organize the Program in conjunction with Head Coaches from different universities throughout the United States. During the program, the Head Coaches are present during the participants' training sessions and matches against local teams. Based on the coaches' personal evaluation, they award partial or full scholarship to participants.

In addition to the athletic training and match experiences gained during the two weeks, the Program offers its participants various cultural, social, and educational activities in each region. These include university campus tours and presentations, including participation at college fairs, and orientation to college courses and classes presented by university professors as well as visits to cultural and historic sites in the region, recreational trips such as theme parks and professional sporting events, and musical performances.

All participants reside in a university campus setting, and stay within university premises. Residence halls are fully equipped, including 24-hour security, and computer labs. Participants have access to the campus library, swimming pool, on-site medical attention as well as all other athletic and academic facilities. The overall experience is extremely safe for all students and results in a life style similar to the one an international student would normally experience once enrolled at an American university.

We also provide college coaches with the opportunity of evaluating each player face-to-face and selecting talented young men or women who would fit their athletic program and institutional values. Coaches greatly appreciate the convenience of this event as they find at one place and at one time, a great number of international students with athletic qualifications, eager to continue their studies at universities in the U.S.A.

NOTE 1: Most participants receive an average of 5 scholarship offers, within a range of up to U\$S 9,000. - Per year (including tuition, room and board). Also, the liberty to choose the participants enjoy, allows them to take offers above the mentioned range.

NOTE 2: Students that have done university studies in their country of origin, may transfer credits. Nevertheless, the corresponding homologation of subjects is carried out by the university, under their own evaluation, and based on their own policies.

The Academic Program; upon entry and application, each candidate's educational objectives are carefully evaluated and their profile is personally promoted within the participating institutions by our network of associates through us.

Each candidate is guaranteed to receive at least seven scholarship offers, taking into consideration their academic interests, within the following ranges:

- a- Two (2) scholarships to be paid yearly (including tuition, room and board) ranging from U\$S 5,500 - to U\$S 9,000.-
- b- Five (5) scholarships to be yearly paid, equal to or under a 50% of the university costs (including tuition, room and board).

Most of these awards are special offers established for our candidates and are not available to students outside the scholarship program. Partial and full tuition awards are available through this program. Full scholarships, though, (including room and meals) are not common. The program runs as per semesters and allows participant entries into the U.S. educational system in both fall and spring semesters. The student may start studying in the semester he is applying or in the following one.

Program Fees:

Processing Fee: NGN 35,000

Academic Scholarship Program Fee: \$1,700

Athletic Scholarship Program Fee: \$3,150

BENEFITS TO NIGERIAN APPLICANTS

Applicants from Nigeria can participate and hope to gain these attendant benefits:

- Opportunity to travel for study in a renowned international institution in the USA.
- Opportunity to meet people from diverse background, culture and interests in global issues.
- Opportunity to benefit from integrated study scholarships and put their athletic skills to work and gain valuable tuition in return.
- Opportunity to have one-on-one athletic skills assessment by the recruiting colleges and universities coaches.
- Opportunity to interact with people from different educational background, study ethics and values thereby gaining a wholesome attitude which is out-of-the-box and contemporary to life.

PROGRAMS:

- ☺ HIGH SCHOOL DIPLOMA IN CANADA
- ☺ UNIVERSITY FOUNDATION IN CANADA
- ☺ ACADEMIC YEAR ABROAD

CANADIAN EDUCATIONAL TRAVEL PROGRAMS

PRAXIS International Institute offers University Preparatory classes through High School study opportunities starting from Grade 10. After three years study with Saskatchewan curriculum in Praxis (Grade 10-12), the students will obtain Canadian high school diploma and can apply to universities in North America directly (just the same as local Canadian students) without taking any English efficiency test.

Applicants for 11th or 12th grade can apply as well, in which case, we will get the student's grade 10 transcripts to be evaluated by Saskatchewan Province Learning Department and see how many extra credits student needs to study in order to obtain Saskatchewan high school diploma. Flexibility is applied to individual students' application and the best suitable way for students' study is ensured accordingly.

We also offer each student a comprehensive and fulfilling education experience, delivered by highly qualified teachers. Students are also assisted to get acquainted with Canada, and a variety of activities such as weekend field trips, sports, drama, cultural celebration etc will help the students feel at home. With the provision of small class sizes, the learning process is better facilitated. Students will also receive training in Environmental Issues, Inter-cultural Communication, Technology, Community Experience, Entrepreneurship/Intrapreneurship, Holistic Development etc.

We at Badabeat Associates understand that it will take some time for young international students to adapt to a new environment in a different country at the beginning. Normally for the first year, students are struggling to obtain good record of scores for the whole academic year in their courses and Praxis focuses on the practical projects that are related to the academic courses, i.e. learning by doing, so that students can find their own way to learn and practice.

Also available is Student Exchange Program for long term program (one semester or one year), the curriculum and activities are the same as our normal high school program; students will obtain course credits for what they learn in Praxis.

For short-term program (say three months), the program are customized so that students might take fewer classes but spend more time in each class and they could actually get credit for work they do within three month window.

Program Fee:

Processing Fee: NGN 35,000

Experience Saskatchewan Program Fee: \$750/Week

Academic Year Abroad Program Fee: Varies with semester duration

BENEFITS TO NIGERIAN APPLICANTS

Applicants from Nigeria can participate and hope to gain these attendant benefits:

- Opportunity to travel and experience Canada in a special fun-filled way.
- Opportunity to meet people from diverse background, culture and interests in global issues.
- Opportunity to interact with people from different cultural background, experience Canada as a insight into what future travel or study plans in Canada will provide.

PROGRAMS:

© UNDERGRADUATE & MASTERS DEGREE IN GERMANY

GERMAN EDUCATIONAL TRAVEL PROGRAMS

Study in Germany with reduced tuition and great study and work opportunities through our German Education programs.

For many reasons, Germany is one of the most popular destinations, chosen by students from all over the world, for both graduate and postgraduate studies. A German degree gives students an excellent practical and theoretical grounding and the best possible start to their chosen career.

EURASIA Institute provides the following essential services and provides local support where it really matters:

- Placement service for overseas students in leading German universities with high success rate in placing students in universities of their choice
- Successful identification of the best available university options and recommendation of degrees in consideration of the student's qualifications, objectives and abilities
- Detailed knowledge of each university and personal contacts in the departments
- Assessment of academic and language qualifications and placement in German or English language training if necessary to qualify for studies
- Placement in undergraduate or postgraduate studies or in foundation program if required by the university
- Comprehensive visa application support services as well as guidance for students seeking our help in any aspect of living and studying in Germany

The Institute offers placement in over 10,000 different degree programs. Here is a small selection of programmes on offer:

- Accounting and Finance
- Aeronautical Engineering
- Agriculture
- Architecture
- Bioengineering
- Biomedicine
- Business Engineering
- Business Information Systems
- Business Studies
- Chemical Engineering
- Civil Engineering
- Computer Science
- Culture Management
- Dentistry
- Environmental Science
- European & International Law
- Film & Theatre Studies
- Genetics
- Health Care Management
- Hotel Management
- Industrial Design
- Information Technology
- Journalism & Media Studies
- Master of Business Administration (MBA)
- Mechanical Engineering
- Human Medicine

- Nutrition & Dietetics
- Optical Engineering
- Pharmacy

Please note: If you cannot find the subject you wish to study in this list of programmes, please ask your local representative office.

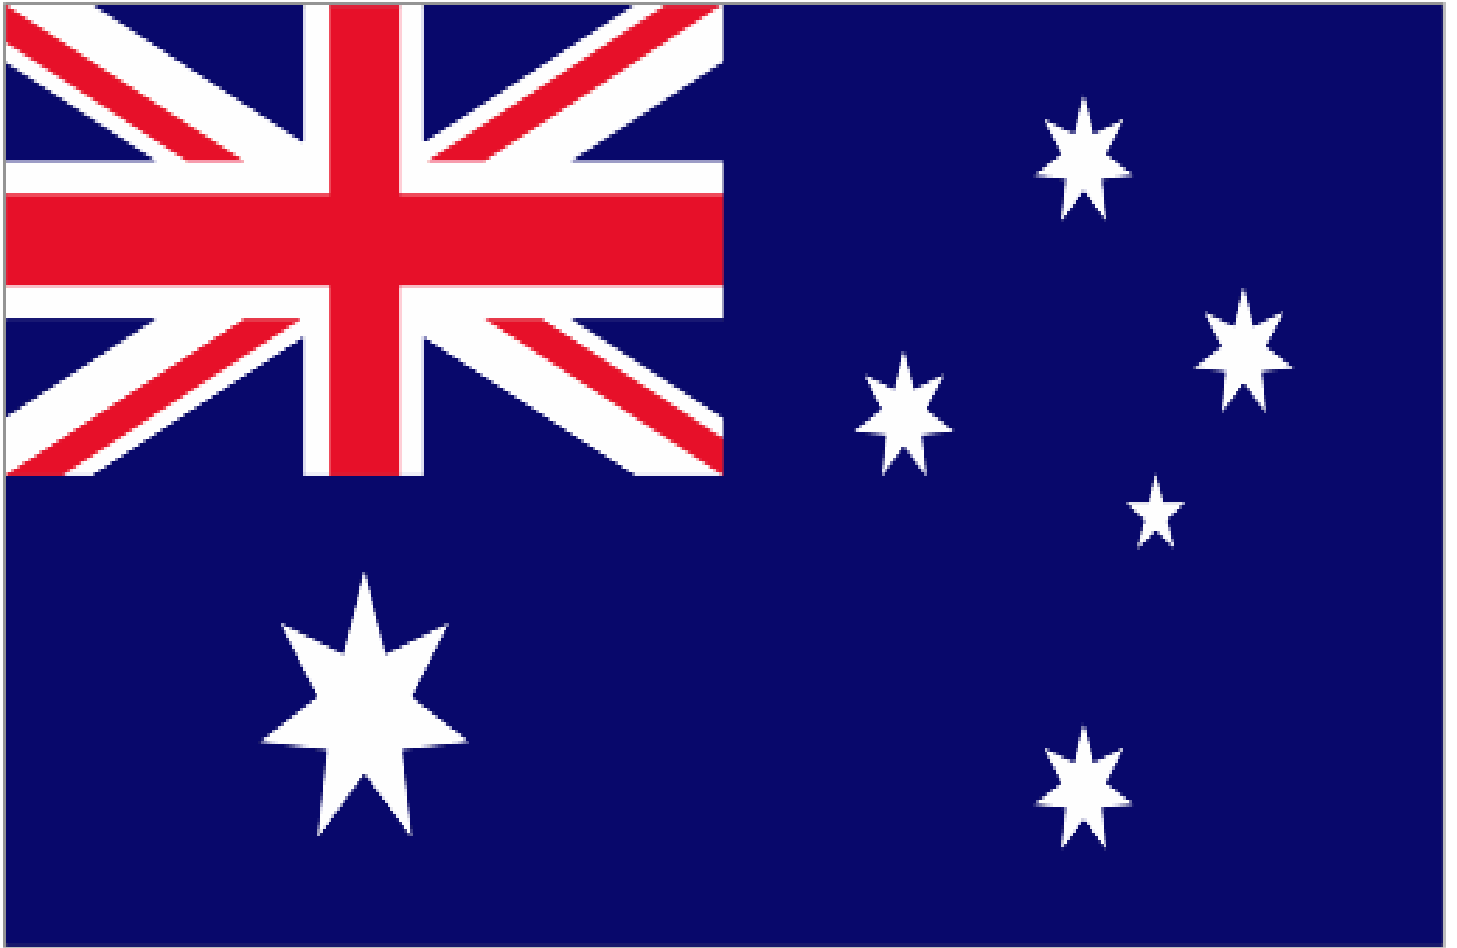

For students who do not yet meet all university entrance requirements, the institute pre-university package will assist.

This includes a super-intensive German as a Foreign Language course, study orientation & university placement service and host-family programme and student services. What does this mean in detail?

1. Prior to their arrival in Germany, we check students' qualifications for admission to higher education at German universities and universities of applied sciences with the help of our partner's universities*.
2. Two to three months after arrival in Germany, each student receives general information about tertiary studies in Germany in the form of a lecture
3. In individual study counseling sessions each student will have the opportunity to ask individual questions about the German language course, language examinations required for university entrance, degrees and specific degree programmes, and application procedures at universities throughout Germany. Furthermore a personal schedule is drawn up with each student. The concrete steps towards application are determined and useful application strategies are conveyed.
4. Our director of studies accompanies the whole application process and helps students to compile the documents required for application (certified copies of all certificates from the home country, Curriculum Vitae, passport copies, a completed and signed application for admission and, in some cases, a letter of motivation)
5. Should problems occur, the director of studies will make contact the International Office of the respective university or university of applied sciences in order to find a solution.
6. Study counseling is completed when the student has been awarded a place at an institution of higher education.

All Foreign Students may do Part-time Work

- o All foreign students who come to Germany on a student visa may do part-time work.
- o Officially they may work 90 days per year or 180 half-days per year for 20 hours a week, the first 50 days in any year are completely free of social insurance contributions
- o After completing their studies, foreign students may remain in Germany for one year in order to search for permanent employment
- o Once they have found work, they may apply for permanent residence status and stay in Germany indefinitely if they so wish
- o We assists students from any country with placement at a German university
- o On arrival, our team helps students to get their work-permit from the immigration
- o Students who book a Premium course will get a free internship which may be paid Short-Term Company Internships
- o All students from the old EU countries may do an internship in Germany
- o Students from EU countries may do an internship in Germany with a work permit
- o Non-EU students should have a valid work visa in order to do an internship
- o We also assists all students to find an internship for a one-off placement fee.

☺ **DIPLOMA & UNDERGRADUATE DEGREE IN AUSTRALIA**

AUSTRALIAN EDUCATIONAL TRAVEL PROGRAMS

DIPLOMA & UNDERGRADUATE DEGREE IN AUSTRALIA

Study at the prestigious Southbank Institute of Technology in Queensland, Australia. Southbank Institute of Technology is the leading provider of vocational and higher-level skills training in Queensland. The Institute is Queensland's largest and Australia's third largest, government-owned training provider. We provide innovative and high quality vocational training and education, delivered through a range of flexible learning methods. More than 24,000 students, from 80 countries, are enrolled in over 290 courses at Southbank Institute of Technology, focusing on areas of discipline that include Design, Arts and Hospitality; Health Sciences; Business and Community Education.

Southbank Institute of Technology can provide you with the training you need, from certificate to associate degree qualifications, to help you succeed, either to get your first job or to upgrade your skills and further your career.

Southbank Institute of Technology's aim is to be Australia's leading high-level vocational and technical education provider for the global marketplace today, and into the future. Our students benefit from the skills of experienced staff and specialist, industry-relevant training in entrepreneurship, health, biotechnology, sport and recreation, arts and entertainment and postgraduate vocational programs for professionals and associate professionals.

Our goal is to educate and empower people of all ages who aspire to build their skills and careers in industries relevant to the changing global marketplace – we provide the training to enable our students to make the most of the opportunities available to them and shape their careers. More students are enrolled at Southbank as a pathway to further study than at any other vocational training provider in Queensland.

For those students who want a university degree, an increasing number of our programs offer a direct pathway to university.

While some of our diploma and advanced diploma programs allow students to enter university degree programs, others allow students to enroll in a dual award program, completing a Southbank Institute of Technology qualification and then progressing on to university to gain a bachelor degree. This enables students to earn two qualifications – a practical diploma and a more theoretical bachelor degree in the three years it would normally take to earn the bachelor degree alone.

Learn with 24,000 students from Australia and around the world, choose from more than 290 programs, study your way: full-time, part-time, short courses, online, flexible delivery and on-the-job training.

- Centrally-located campuses at South Bank and Morningside – close to Brisbane's heart
- Cutting-edge, purpose-built facilities and laboratories
- Nationally-endorsed training packages ensuring relevant, practical and up-to date teaching
- Easy public transport access - by train, bus or ferry*
- More than 735^online courses and programs Education pathways leading to Universities.

To assist you in your educational pursuits, Southbank Institute of Technology offers a selection of scholarships and bursaries for both new and continuing students.

PROGRAMS:

© UNDERGRADUATE & MASTERS DEGREE IN UKRAINE

UKRAINIAN EDUCATIONAL TRAVEL PROGRAMS

Kharkiv National University of Radio Electronics (KNURE) is one of the oldest Universities in Ukraine. It was founded in 1930 as the Kharkiv Civil Engineers Institute.

In 1966 it was transformed into the Kharkiv Institute of Radio Electronics. Since 1966 it has been specializing in the field of radio electronics, computer science and design of electronic equipment.

The university has the highest level of accreditation granted by the Ministry of Education and Science of Ukraine.

At present the university trains more than 9000 students and confers two degrees: a Bachelor's degree and a Master's degree. PhD programs are available for holders of Master Degree. **Training in English is available.**

High quality of education is ensured by more than 700 highly qualified teachers including 25 Academicians; 135 State Professors, 440 Associate Professors (PhD).

The beginning of academic year is the 1st of September. It lasts up to the end of June and consists of two semesters: the autumn semester (September - January) and the spring one (February - June). Winter holidays last two weeks, summer holidays last two months (July – August).

Recognition of University Diplomas

National Recognition: The University has the highest level of accreditation granted by the Ministry of Education and Science of Ukraine. On the base of the University, the Ministry of Education and Science develops several national programs: distance learning, Integration into the European education.

International Recognition: Bachelor and Master Degree of our University are worldwide recognized. The students who have Bachelor degree can continue their study at any University all over the world. Our graduates continue their study at, for example: East London University (UK), Wessex Institute of Technology (UK), Ryerson University (Canada), Technical University Kaiserslautern (Germany), New York University (USA).

The University graduates work at higher schools, industrial enterprises, research organizations in Canada, USA, UK, Uganda, Kenya, Nigeria etc.

Programs at the University

1. Bachelor's Programs: Computer Engineering (available in English), Economy and Business (available in English), Computer Science, Radio Engineering, Electric Engineering, Laser and Optoelectronic Engineering, Applied Mathematics, Telecommunications, Information Security.

Duration of study: 4 years.

2. Master Programs: Computer Systems and Networks (available in English), Software Engineering (available in English), System Programming (available in English), Economic Cybernetics (available in English), Intelligent Decisions Making Systems, Information Control Systems and Technologies, Radio Engineering, Electronic Instruments and Devices, Manufacture of Electronic Devices, Biotechnical and Medical Apparatus and Systems, Laser and Optoelectronic Engineering, Informatics, Applied Mathematics, Information and Communication Networks, Information Security in Computers Networks.

Duration of study: 5-6 years or 1-2 years after Bachelor Degree.

3. International Master Programs: Wessex Institute of Technology, UK and Kharkiv National University of Radio Electronics, Ukraine. This is a full-time 12-month program of research and integrated courses, leading to a UK MPhil degree in Information System, Data Mining and Knowledge Discovery. The Program consists of 9 months at Kharkov National University, Ukraine and 3 months at the Wessex Institute of Technology, UK

4. Preparatory Faculty (Ukrainian or Russian Language Course)

Duration of study: 1 year.

Criteria:

For the Preparatory Faculty (PF): After finishing PF in KNURE the students are granted a Preparatory Faculty Certificate, which enables them to enter any Ukrainian universities (engineering, medical, pharmaceutical, economic or humanitarian type) out-of-competition. So, no matter where he is planning to study in Kharkov, Kiev, Lviv and so on.

For Bachelor Programs in English: Computer Engineering, Economics and Business. We admit an applicant directly to 1st year of these programs without Preparatory Faculty Certificate. In this case, an applicant economizes one year. Russian language is studied during first two years as a subject.

For Transfer or to Complete Study in Ukraine: For example, for second year or for Masters Program (who is a holder of Bachelor's Degree).

The International Masters Degree.

For Ph.D. Programs:

Duration of study: 3-4 years.

Entry Requirements

1. Secondary School Certificate (legalized original or legalized notary attested copy).
2. Birth Certificate (legalized original or legalized notary attested copy).
3. The latest Health Certificate (legalized original).
4. AIDS test Certificate (valid for 3 months only).

* Legalized means:

1. Secondary School Certificate is legalized in the Ministry of Education and Ministry of Foreign Affairs.
2. Birth Certificate and the latest Health Certificate is legalized in Ukrainian Embassy.

Resumption:

The term of coming to Ukraine is from the 15 of August till the 15 of November

PROGRAMS:

☺ CERTIFICATE AND DIPLOMA COURSES
